OUR QUALIFICATIONS

About Us

Qi'an Glass – Reliable Glass Solutions from China.

- Qi'an Glass is a professional glass supplier specializing in high-quality glass products and customized glass solutions for international customers.
- We understand that overseas glass buyers are not only looking for competitive prices, but also reliable quality, stable supply, accurate specifications and safe delivery. Therefore, we focus on providing a complete supply solution from raw material selection to production control, quality inspection and export packaging.
- Our product range includes tempered glass, laminated glass, insulated glass, decorative glass, ultra clear glass and customized processed glass. With advanced processing capabilities, we can provide glass cutting, edge polishing, drilling, tempering and other customized services according to different project and market requirements.
- Quality consistency is one of our key priorities. We implement strict quality control throughout the production process, including raw glass inspection, production monitoring, finished product inspection and export packing checks. This helps our customers reduce quality risks, transportation damage and after-sales problems.
- For glass distributors, contractors, manufacturers and project suppliers, Qi'an Glass aims to be more than a glass supplier. We are committed to becoming a reliable long-term partner by providing stable supply, flexible solutions and professional service.

At Qi'an Glass, our mission is simple:

To help global customers source reliable glass products with confidence.
